

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1. (currently amended): A foamable composition comprising a water-in-oil type emulsion, which composition is contained in an aerosol container, wherein the emulsion comprises an emulsifier in the amount of 0.5 to 6.0 wt% based on the emulsion; the container comprises a gas propellant partially dissolved in said water-in-oil emulsion; ~~and~~ the container has a discharging nozzle for discharging the composition with the gas propellant as a foam therefrom; and ~~wherein~~ the foam is formed at the time of jetting.

2. (currently amended): The foamable composition according to claim 1, wherein the ~~water-in-oil emulsion comprises an emulsifier which~~ is at least one member selected from the group consisting of glycerin fatty acid ester, sucrose fatty acid ester, sorbitan fatty acid ester, polysorbate and enzyme-processed lecithin.

3. (canceled).

4. (previously presented): A foamable edible oil composition, which comprises an edible oil and an emulsifier, in which the edible oil is contained in an aerosol container, wherein the container comprises a gas propellant at least partially dissolved in said edible oil; and the container has a discharging nozzle for discharging the edible oil with the gas propellant as a foam therefrom; and wherein the foam is formed at the time of jetting.

5. (previously presented): The foamable edible oil composition according to claim 4, wherein the emulsifier is at least one member selected from the group consisting of glycerin fatty acid ester, sucrose fatty acid ester, sorbitan fatty acid ester, polysorbate and enzyme-processed lecithin.

6. (previously presented): The foamable edible oil composition according to claim 4, wherein the foam is a spread.

7. (previously presented): The foamable edible oil composition according to claim 5, wherein the foam is a spread.

8. (previously presented): The foamable composition according to claim 1, wherein the foam is a spread.
